BITTY BUMPERS VOLLEY BALL

Instructor Breigh Chadwick has over ten years experience in coaching and instructing volleyball. Our Bitty Bumpers Volleyball program is a great way to introduce your child to the sport of volleyball.

This youth program teaches skills development through fun activities like an obstacle course and games in-between real volleyball skill instruction. Both age levels will learn to pass, set, hit and serve.

These FUNdamentals will be successfully introduced using a lighter ball, lower net and smaller court designed specifically for your children's age and skill levels.
